

Amendment to the Club Bylaws approved on June 15, 2017:

7.1.1 Temporary suspension. In the event that the President, after reviewing the charges, shall determine that an emergency exists which justifies suspending the accused pending a resolution of the charges by the Board of Directors, he may recommend to the Board of Directors that the accused be suspended from any or all specified Club privileges, with or without conditions, pending the resolution of the charges. The President shall promptly forward his recommendation to the members of the Board of Directors for action, either at a special meeting to be called at the time such recommendation is forwarded or by alternative action as authorized by Section 2.9 of these Bylaws.

Upon consideration of such recommendation, the Board of Directors may approve, reject or modify the same as it may in its discretion determine to be appropriate to protect the interest of the Club. The Secretary shall thereupon give prompt and reasonable notice to the accused of the action of the Board of Directors, if any.
